EDUCATION

DR. YANGA'S COLLEGES, INC.

Bocaue, Bulacan

BS Information Technology

2026

Major in Software Development · Data Analytics

Cumulative Weighted Average (CWA): 1.75; Dean's Lister, 2022–2023

Relevant Coursework: Software Engineering, Data Structures & Algorithms, Database Management System, System Analysis and Design, Web Development

WORK EXPERIENCE

DVCODE TECHNOLOGIES, INC.

Remote, Philippines

IT Intern (Full-Stack Developer)

Feb 2026 – May 2026

- Participated in a 12-week hybrid internship program focused on full-stack development, UI/UX design, and system architecture
- Collaborated in sprint-based development cycles, including weekly huddles and project reviews
- Developed web application features using Next.js, TailwindCSS, and ConvexDB

DR. YANGA'S COLLEGES, INC.

Bocaue, Bulacan

Web Developer

Oct 2025 – Jan 2026

- Developed a full web-based clearance and document request system, replacing the manual paper process.
- Improved administrative efficiency by reducing manual tasks, paperwork, and processing delays.
- Implemented security measures including SSL, encrypted data storage, and session validation.

PROJECTS

TASKFLOW (Project Management System)

2026

- Developed a full-stack, multi-tenant project management platform supporting 6 user roles with secure role-based access control (RBAC), workspace management, and Google OAuth with Two-Factor Authentication (2FA).
- Built 20+ core features, including real-time Kanban boards, sprint management, issue tracking, comments, notifications, audit logs, and automated project progress tracking using Convex's reactive architecture.
- Collaborated in an Agile Scrum team to deliver the application across 9 development sprints, implementing scalable SaaS architecture with real-time synchronization and workspace isolation.

EAS-CE (Easy Access Students Clearance and E-Documents)

2025

- Created automated workflows that routed exit-clearance items to multiple departments with real-time status updates
- Designed and implemented end-to-end modules: login system, dashboards, document request workflow, online payment tracking, and reporting

ADDITIONAL

Technical Skills: Proficient in JavaScript/TypeScript, PHP, React, Node.js, MySQL, HTML/CSS; Familiar with Python, Git, and REST APIs

Certifications: IT Specialist in Data Analytics; Certificate of Completion (Huawei Academy) · Languages: English (fluent), Filipino (native)
